Internet Safety Bingo

A fun game to help kids ages 6-10 learn important online safety rules! Play together as a family, in classrooms, or at community events to make cybersecurity education engaging and memorable.

How to Play Internet Safety Bingo

01

Get Your Cards

Each player receives a different bingo card with safety tips in each square. We've included four unique card designs so everyone has a fair chance to win!

02

Listen for Call-Outs

The caller reads safety tips one at a time from the calling cards. Players mark the matching square on their card when they hear it.

03

Mark Your Squares

Use coins, stickers, or colorful markers to cover squares as they're called. This makes it easy to track which tips you've heard!

04

Win with Five in a Row

First player to get five squares in a row (horizontal, vertical, or diagonal) shouts "BINGO!" and wins the round.

Safety Tips on Your Bingo Cards

Basic Safety Rules

- Tell an adult if something feels wrong
- Keep passwords secret from friends
- Don't share personal information online
- Ask permission before downloading apps

Good Online Habits

- Be kind to others online
- Log out when you're finished
- Use strong passwords with numbers and letters
- Don't click on strange or suspicious links

Each card features these essential tips in different arrangements, making every game unique and reinforcing important safety concepts through repetition and fun.

What's Included in Your Game Set

Four Unique Bingo Cards

Each card features the same safety tips arranged differently, ensuring fair gameplay and keeping things exciting for multiple rounds.

Complete Calling Card Set

Includes all safety tips on individual cards for the caller to read aloud, with large text for easy reading during gameplay.

Ready to Print & Play

Simply print on standard paper, grab some markers or coins, and start playing! No special materials or preparation needed.

Tips for Making Learning Fun

Discuss Each Tip

After someone wins, talk about what each safety tip means. Ask kids to share examples from their own online experiences.

Offer Small Prizes

Stickers, extra screen time, or a special snack make great rewards. Winners feel proud while learning important safety lessons!

Play Multiple Rounds

The more you play, the more kids remember! Try different variations like four corners or full card blackout for extra fun.

This game transforms cybersecurity education into an engaging activity that kids actually enjoy, helping them internalize crucial online safety habits through play and positive reinforcement.

About Cybersecurity Non-Profit

Making cybersecurity knowledge accessible to everyone through education, community, and practical resources.

Our Free Programs for Everyone

- Business & Non-Profit Security

- Family Cybersecurity Education

- Kids Internet Safety Programs

- Senior Digital Safety Training

- Women's Security Workshops

- Resources for Parents & Educators

All our programs, workshops, and resources are completely free because we believe everyone deserves access to essential cybersecurity knowledge.
